Subject: Data Analyst – XYZ Company advertisement posted in LinkedIn

Dear Mr. Sam Alexander,

I was thrilled to come across the Data Analyst position at XYZ Company on LinkedIn! The opportunity to contribute my skills in MySQL, Python, MS Excel and passion for Data Analysis to a company as innovative as yours is truly exciting. With a background in computer science and 2 years of experience in Data science, I have honed my abilities in MS Excel, Python programming, MySQL and Power BI. At NZX Company, I achieved dashboard optimization & customer retention improvement. More than just technical skills, I bring enthusiasm, creativity, and a drive to excel qualities that I believe align perfectly with the dynamic environment at XYZ Company. What excites me most about this opportunity is about your company customer-centric innovations. I am eager to bring my problem-solving mindset, leadership skills, or innovative approach to your team and make a meaningful impact. I would love the opportunity to discuss how my skills and passion can contribute to XYZ.

Thank you for your time, I look forward to the possibility of joining your team! Please feel free to reach out at your convenience.

Best regards,

John J Olickal
